# **A Master in the Art of Living**

A Master in the Art of Living  
draws no sharp distinction between work and play,  
labour and leisure, mind and body,  
education and recreation.

These individuals hardly know which is which.

They simply pursue a vision of excellence  
through whatever they are doing  
and leave others to determine  
whether they are, in fact, working or playing.

To themselves, they always appear  
to be doing both.
